COMPANY PROFILE

EPC Africa

2022
EDITION

WHO WE ARE

EPC Africa Group is a private structure of several companies, with a Head Office based in Kigali-Rwanda, specialized in:
Design, Building, Procurement, Investment, Management, Operation and Maintenance of Power Generation, Power Transmission & Distribution Infrastructures, Construction on a contractor basis, and Real Estate Development.

EPC Africa

OUR VISION

A prosperous and Self-Sustained African Community.

OUR MISSION

Design, Build and Maintain Affordable Infrastructures for the African People.

OUR VALUES

Integrity, Ownership, Teamwork, Community Impact and Innovation.

WHAT WE DO

1. ENERGY

- Power Generation (Hydro, Solar and Gas).
- Power plant Operation & Maintenance services.
- Repair and upgrade of power systems.
- Capacity building of technical personnel.

2. CONSTRUCTION SERVICES

- Power Generation Infrastructure Projects.
- High voltage power transmission projects.
- Power distribution and rural electrification projects.
- Real Estate, Affordable Housing & Community Development Projects.
- Water Supply and Sanitation Projects.
- Marine and Civil Construction Works.

3. PROJECT MANAGEMENT CONSULTANCY

- Power Generation Plant Studies and Design.
- Design and Supervision of Power Transmission projects.
- Design and Supervision of Distribution projects.
- Contract Management.

WHAT WE DO

4. SCM AND TRADING

- Procurement and Logistics.
- Oil and Petroleum products.
- Agricultural products.
- Metals and minerals.
- Deep-Sea Commodity Trading.

5. ICT & DIGITAL PLATFORM

- ICT equipment supply & ICT Solutions Conception.
- Software Development.
- Business process Analysis.
- Data Science & Artificial Intelligence.

6. COMMUNITY IMPACT PHILOSOPHY

- People Empowerment.
- Professional Capacity Building and Mentorship of young professionals.
- Development of the Corporate Culture and Effective Professional Communication.
- Giving back to the Communities surrounding our Businesses through our EPC Africa Tubakunde Initiative Program known as EPCA TIP.

ENERGICOTEL
Power Generation

ENERGICOTEL "ECTL" PLC, a member of EPC Africa Group, is an Independent Power Producer (IPP) and an Engineering Consulting Company with Power Purchase Agreements and Concessions to design, build, upgrade, finance, operate, and maintain power plants in Africa.

ECTL PLC CORE ACTIVITIES:

- Power generation (Hydro, Solar & Gas).
- Power plants operation & maintenance services.
- Repair and upgrade of power systems.
- Capacity building of technical personnel.
- Engineering design & Supervision of Power Generation, Transmission and Distribution.

ECTL in partnership with Rwanda Energy Company (REC), a subsidiary of Rwanda Investment Group (RIG), formed MAGMA Energies LTD which is a Special Purpose Vehicle (SPV) for the joint development of Methane Gas Resources.

Currently, ECTL operates three (3) Hydro Power Plants with total capacity of 3.2 MW located in Western Province of Rwanda:

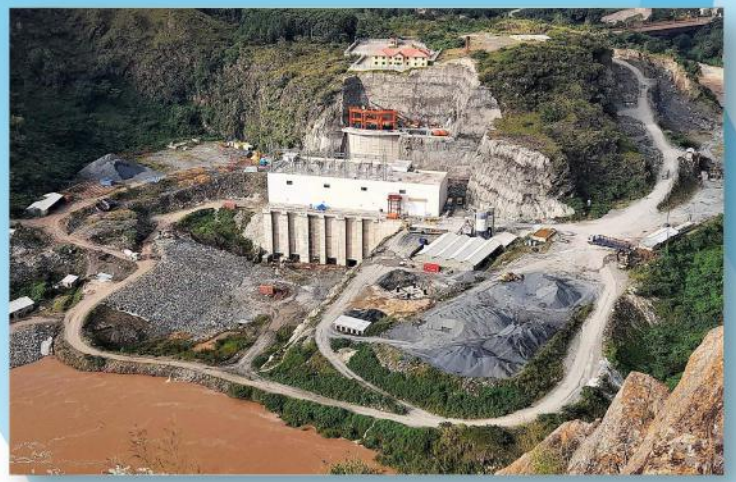
- Keya
- Nkora
- Cyimbili

3 HPPs
(Keya, Nkora & Cyimbili)

3.2 MW Capacity

Following the Capital Market Authority (CMA) approval to issue and list a long-term fixed rate Corporate Bond on Rwanda Stock Exchange (RSE), ENERGICOTEL officially commenced its trading in August 2021.

ECTL PLC in partnership with "AECOM CANADA" is currently taking part in the design review and supervision of ongoing construction works of the Rusumo Falls Regional HPP project of 80MW funded by the Word Bank and AfDB, shared between Rwanda, Burundi, and Tanzania.



AFRILOTT

Logistics, Trades & Technologies

AFRILOTT is a subsidiary of EPC Africa Group, that specializes in commodity Trading, Procurement & Logistics (Goods & Equipment), Supply Chain Management and ICT Solutions.

Afrilott is an independent trader in oil & petroleum, Agriculture and consumer products.

We focus on creating long-term value for our clients by prioritizing their interests reliably, efficiently & responsibly.

As a private business, we put customers first and emphasis on industry best practices and technologies. Afrilott selects the finest brands available and follows up on all aspects of manufacturing. We are committed to reliable delivery at the right price with the right quality.

AFRILOTT CORE ACTIVITIES:

TRADING & SUPPLY CHAIN:

- Procurement and Logistics (Goods & Equipment).
- Oil and Petroleum Products.
- Agricultural Products.
- Metals and Minerals.
- Deep-Sea Commodity Trading.

ICT & DIGITAL PLATFORM

- ICT equipment supply & ICT Solutions Conception.
- Software Development
- Business process Analysis
- Data Science & Artificial Intelligence.

EXPERIENCE

Our experience in consultancy & procurement for different industries is second to none.

We employ a strong team that understand the ins and outs of Supply Chain Management.

We are committed to delivering emphasis on industry best practices and technologies, communication, accountability, and most importantly strategy.

CENTURY ENGINEERING CONTRACTORS

CEC Ltd is a Civil Engineering and Electromechanical Contractor that specializes in:

- Power Generation Infrastructure Projects.
- Power Transmission and Distribution Projects.
- Real Estates, Affordable Housing & Community Development Projects.
- Water Supply and Sanitation Projects.
- Marine and Civil Construction related Works.

CEC Ltd made history of being the first Rwandan company that successfully built a 220kV Transmission Line; a portion of Shango-Birembo Line interconnecting Rwanda and DRC.

TRANSMISSION & DISTRIBUTION PROJECTS

1. Construction of a 220kV transmission Line; a portion of Shango-Birembo Line interconnecting Rwanda and DRC.
2. Construction of 110kV Kigali ring network.
3. Design and build 30kV distribution line from Camp Belge substation to Musanze Industrial Park.
4. EPC for the upgrade of 1.6MVA to 10 MVA to 10 MVA for better reliability Kirinda transformer.
5. EPC for Nyabarongo 110/30kV 20MVA Substation and a new feeder from Nyabarongo I substation and Load transfer from Gatumba and Ngororero Feeders to the new feeders from Nyabarongo I.
6. Procurement of Plant Design, Supply, and Installation of Low Voltage and Medium Voltage Lines & Service Connections in Rutsiro & Karongi Districts, Western Province of Rwanda.
7. Plant design, supply, erection and commissioning of 110kV Mukungwa-Nyabihu Transmission line.

CIVIL & MARINE WORKS PROJECTS

1. Civil Works for Construction of Port Facilities at Rubavu (Lot 1) and Rusizi (Lot 2).
2. Design and Construction of Keya, Nkora and Cymbili Hydro power plants.
3. Design and Construction of two-storey building for EPC Africa Group Headquaters.
4. Design and construction of 3-storey Lebanon Hotel in Remera, Kigali.
5. Design and Construction of 8 blocks with 64 modern residential apartments.
6. Trinity International Academy Renovation & Extension works.

EPCA
Housing

AFFORDABLE HOUSING PROGRAM HIGHLIGHTS

At EPCA Housing, we believe in delivering affordable homes without necessarily compromising the quality but rather focus on making our homes accessible and safe.

Our philosophy is to design, build and finance affordable homes for all. Due to the scarcity of the land, our architectural designs focus on land optimization to remain within the Green Growth and Climate Resilience National Strategy guidelines to complement the national master plan.

As a Contribution to the Government of Rwanda's initiative to bridge the existing housing gaps, EPC Africa Group introduced a real estate development company called EPCA Housing Ltd to channel part of its investments in real estate, initially focusing on the Affordable Housing Program.

According to the National Strategy for Transformation (NST 1), the Government of Rwanda plans to increase the urbanization rate from 18% - to 35% in the next 5 years to support economic growth.

A housing Market study done in the City of Kigali (IGC 2018) showed that 700,000 new units will be needed by 2028, with 70% falling under the Affordable Housing category.

INTERNATIONAL BUSINESS

EPCA South

In Zimbabwe, EPCA is currently engaged in the development of the 20MW Solar farm which is situated in Gweru.

The Solar farm is meant to feed power into the electricity grid.
The aim of the project is to alleviate and tone down the power shortages in the country.

Our intention is to use sustainable energy for the development of the nation of Zimbabwe.

The 20MW Plant will service areas in and around Gweru.
The electricity generated from this project will support the local industries in the area to increase their productivity in the country.

In the Pipeline, we have other strategic Power Supply Projects to be launched soon in Kenya, DRC and Malawi.
